according to EN 10080

the undersigned, Inspector to Bureau Veritas, certifies that the above factory meets the applicable requirements for the production of the product and associated components referenced above.

This approval remains valid as long as no significant changes are made to the audited facility, its production rate and its quality system. These conditions are assessed during each inspection of series.

This approval is an integral and indissociable part of the certification process managed by Bureau Veritas as defined in BV procedure GM SI 210.
